

GADSL Declaration

We, Richtek Technology Corporation, hereby confirm that all products supplied by us comply with the requirements of the Global Automotive Declarable Substance List (GADSL). Certain substances contained in our products may be classified as Declarable Substances under GADSL. Detailed information regarding the composition and concentration of these substances for each part number is available in the corresponding Material Safety Data Sheet.

Should the customer have any questions regarding our products, please feel free to contact our sales representative.
